Doctoral Course in Mathematical Sciences
curriculum: ...... (*Mathematics or Computational Mathematics*)

Cycle .... *(XXXIX or XL)*

Annual report on the PhD activity - a.y. 2024/2025

PhD Student: .... *(Name and surname)*

Supervisor:.... *(Name and surname)*
co-Supervisor:.... *(Name and surname)*

Passed exams:
(*Please list the titles of the courses of which you passed the exam, specifying if they are Courses of the PhD School or Courses for a curriculum. In case of admission to the third year, please list all courses, specifing the year.*)

Other courses:
(*Please list the titles of the courses you attended without passing the exams and write a few lines describing what you learned from each of them. In case of admission to the third year, please list all courses, specifing the year.*)

Further activities:
(*e.g., soft skills activities, popularization (=“terza missione”) activities*)

Teaching activities (i. e., various types of tutoring):
(*please list your teaching activities, if any*)

Use of your research fund:
(*please state how much research money is left and how you plan to use it in the next year(s)*)

Other scientific activities:
(*e.g., talks delivered or attended; conferences attended, ...*)

Travels and research periods abroad:
(*please list your travels and research periods abroad; please be patient, as we need your help: count the number of days you spent abroad. In case of admission to the third year, please list all travels, specifying the year*)

Research activity: *Please describe in a synthetic way the problems that you have been working on, the methods used and the results obtained (if any)*
